

Perforated tool cabinet

Tool cabinet with dimensions h x w x d = 715 x 870 x 250 mm, for placement in perforated columns (CC 900), at the back edge of work and packing tables, on floor-mounted L- and T-stands, on assembly trolleys or directly on the wall. Necessary mounting details for mounting on the column are included. The tool cabinet is perforated (9mm square hole with CC 38mm) so you can use our tool hooks for efficient storage of tools.

Färger

Frame Grey RAL7004, Doors Dark grey RAL7024
