

## Work bench on wheels GBP

The mobile workbench consists of a cabinet with a lockable door and a movable shelf as well as a drawer unit with five drawers.

The drawers are equipped with strong expansions, which provide 110% extensibility.

The drawers also have drawer locks and central locking.

The worktop consists of a chipboard coated with oak parquet and with a steel edge all around. The workbench is equipped with two swivel castors with brake and two fixed wheels without brake, Ø160 mm.
