

One-pillar table TL18, stand

Single column table TL18 800×800 mm (rec. Board size 800×800 mm). The table stand of the single-column table consists of a stable lifting column TL18 made of aluminum with an integrated motor. The table has a capacity of 200 kg distributed load and lifts 22 mm per second without load. The table height is easily regulated with a table control that is mounted under the top in the table frame. The stand is delivered with an extension frame as standard. Table top ordered separately, choose between gray laminate or gray vinyl. Suitable discs can be found below as a related product.
