

Lifting columns TL3

TL3 lifting column with lifting height 700 mm, this edition is 1-single column with outer profile down. TL3 is a strong, electrically driven lifting column in extruded aluminum for use in workshops and industry.

For each column, 2 recessed floor and top plates (257 x 195 x 8 mm) must be ordered for safe and stable operation. The table has a working height of 520 – 1220 mm (without table top).

Lifting speed is 34 mm/sec without load and electronic control box is included, regardless of version. Select the desired control unit, hand or foot control.

Pelarana is certified according to standards IEC60601-1 & EMC.

Product specifications

Maximum load/column	2000
Height range excl. disc	520-1220 mm
Lifting speed (mm/sec)	34
Max dynamic bending moment (Nm)	1000
Max static bending moment/column (Nm)	2000
