

Ergo Classic

Ergo Classic is a workplace mat made of recyclable vinyl with a thickness of 10 mm. Ergo Classic provides good ergonomics as it contains microcells with millions of air bubbles. The ribbed surface layer provides good friction and good slip protection. The chamfered edges reduce the risk of tripping. The carpet's soft cushioning properties also contribute to the anti-slip properties. The carpet effectively insulates against cold and vibrations.

The carpet meets the R10 DIN 51130 anti-slip standard. Ergo Classic is best suited in front of workbenches and machines in dry, light work environments such as warehouses, blacksmithing, packing tables and assembly lines. The carpet is ordered in pieces or per meter.

Ergonomic mats for the workplace are very important to relieve the leg and back when working standing. It can also reduce sickness absence and prevent wear and tear injuries.

Workplace mats are intended for standing work on hard floors and provide some sound attenuation and insulate against cold floors, all mats provide a shock-absorbing effect and increased comfort and safety.
