

Boltless shelf system corner shelf

Boltless Corner shelf. Capacity is 150 kg/shelf and 1100 kg total capacity for the entire corner shelf.

Boltless shelf systems are stable, galvanized storage shelves that are very easy to assemble without screws.

These storage shelves have many smart details. The storage shelves are delivered in four different depths and two widths and with a capacity of 150 kg or 250 kg.

Increase capacity per shelf further by supplementing with reinforcement beams. Here you can choose from a large selection of starter sections and add-on sections.

A starter section is complete (can stand separately) and consists of 2 end panels, 5, 6, or 7 shelves and back cross. An add-on section is connected to a starter section or other add-on sections and consists of 1 end, 5, 6 or 7 shelves and back cross.

Corner shelf height 2000 mm
