

Boltless shelf system X-back height 2000 mm

Boltless shelf systems are stable, galvanized storage shelves that are very easy to assemble without screws. The storage shelves are delivered in four different depths and two widths and with a capacity of 150 kg or 250 kg.

Increase capacity per shelf further by supplementing with reinforcement beams.

A starter section is complete (can stand separately) and consists of 2 end panels, 5, 6, or 7 shelves and back cross.

An add-on section is connected to a starter section or other add-on sections and consists of 1 end, 5, 6 or 7 shelves and back cross.

Starting section width 750 mm
