

Microclean

Tool and small parts wash Microclean is our smallest workshop wash. It is suitable for service, repair and car workshops. Microclean can be placed directly on a workbench or hung at a suitable height on a wall.

The laundry is washed manually using a shower brush. Microclean is the ideal solution for washing small machine and engine parts. The wash is intended for aromatic-free, low-fat degreasing with a flash point above 70° C.

Washing bench dimensions: 510 x 340 mm.
Volume of washing liquid: 8 litres.
Complete with Aroma-free degreaser.
