

Assembler and wheelchair All-round

All-round riding chair with undercarriage and 75 mm wheels, is a smart and robust riding chair adapted to you who do a lot of work while squatting. In the underframe of the chair, you will find 5 practical compartments for storing the things you use most during the course of a working day. The chair has a simple round seat in PU foam with stepless adjustment in seat height 350 – 470 mm.

Below you will find additional equipment.
