

Workbench Dallas

Complete Workbench Dallas with frame, . Manually very stable height adjustable leg stand with wheels for 40 mm table top with depth 800 mm.

The leg stand can be mounted either on the right or left with the wheels facing the center of the table. The wheels are firmly mounted, and by stepping on the stirrup the legs are pushed down, height difference between position on legs and on wheels is 10 mm.

All wheels with brake, Ø 150 mm. Max spread load for the table on legs is 500 kg, and 300 kg if the table is on wheels.

Moving tables on wheels should be done without load. High-pressure laminate on the table top provides high scratch resistance and is resistant to liquids and chemicals.

The table tops are pre-drilled with screw inserts for legs and frames and consist of a solid wood core and glued wood fiberboard.

The maximum capacity refers to an evenly distributed load. Don't forget to order a superstructure frame and other superstructures.

Color

Table top light grey G3153

Frame grey RAL7004
