

Packing table combination 9

ErgoMini is an electrically adjustable work table that consists of two table legs with integrated motors in each leg.

The stand has intermediate braces for increased stability. The table height is easily regulated with a table control, which is mounted under the top in the table frame.

Including 24 mm table top gray high pressure laminate. The table's maximum load applies with a spread load, lifting speed applies when the table is unloaded.

Packing table Ergomini combination 9 consists of:

- 1 cutting unit
- 2 shelves
- 6 shelf dividers with a height of 200 mm
- 1 axle on bracket, mounted suspended on the pillar
- 1 shoulder over the table, mounted between the columns
